Dear Keith,

Here are the meter readings for my Keller Quay water system. During the summer, April-October, I read the plat's individual meters on the 1<sup>st</sup> of the month. If I also read the well meters on the 1<sup>st</sup> and the 15<sup>th</sup>, it makes it easy to find leaks. I found a sizable leak in early October, and it shows in the volumes after repairing it.

Also, I am enclosing a letter from the Conservancy Board on my application to move the point of withdrawal, etc. in preparation to submitting phase II of my plat to the county. Will you check on the public notice draft so I can move forward with my application.

Thank You.
